Mr. M.J.Conklin
Box 362
Canton, Ill. 61520

Dear Mike,

It was possible to complete my business in New York more rapidly than I'd expected so I'm home early. Good thing, too, because today I got the CIA Olson file. No chance to read it because of other needs. But I did skim the first couple of 156 pgges. Frank Olson worked for TSS, which I believe is new. Sheffiled Edwards says.

What I paid the family lawyer for has not come yet. Unless you are in a hurry I'll hold off sending you anything until I get that and cane check them page for page. I did pay for an extra set from the lawyer for you, so that will not require that I xerox it, which is not easy for me now.

However, if that set is not as complete as what I got from CIA, I'll send you those missing pages and you'll have all I do.

From the first few pages there are many names, including doctors.

Gary apologized for the delay today. He has copied the IG report already but has delayed to sit and talk with Les to see if Les knows of anything else they have so he can send as much as possible. They have both been busy, Les more so because he was sick and has had to be away. He is away today.

So far as I now know I will not be away for more than a brief period, as for shopping, until Tuesday morning. No, I have a speech Monday night.

It is not the same thing but did you ever hear of Operation Thunderbird? I have a friend who is interested.

Best,
